

EXPERIENCE

2011-present
.....

Lead Designer
TRAVELBIRD - AMSTERDAM

I worked at TravelBird almost 5 years. In the early days I was the only designer and worked late nights with the team on beer and pizzas to perfect the website and emails. I changed office 3 times and desks 32 times. During my time the company grew from just a few to 700+ people.

During this time I learned about marketing as a member of the marketing team and front-end coding as a member of the IT team. I know all about SCRUM, as I recently participated in a SCRUM training.

2010-2011
.....

Designer & Web Developer
MEDIAXPLOSION - HILVERSUM

Coming from a predominately graphic and print background —I became immersed within the digital space. Quickly learning front-end development, web technologies. Clients and projects varied from start-ups, agencies to ecommerce production while working on digital products.

2005-2010
.....

Graphic Designer
LAYERBRANDING - KONYA

A young, forward thinking and uber creative studio in Konya, Turkey. Working across a diversity of mediums from graphic design, identity, illustration, fashion, art to basic film. I developed strong communication skills. Some of my clients: David People, Atiker, Konyaspor, Seha.
